

QUALITY POLICY

It is our pledge to provide diagnosis and treatment through expert ophthalmic care with love and compassion.

The safety of the patient shall be foremost on our minds and the eye care delivery shall be in accordance with standard international practices provided by highly trained, dedicated and motivated team of professional eye care givers.

There shall be no compromise on quality in our services and no practices that are but in the highest realms of ethics will be followed here.

All patients irrespective of their socio-economic status or others shall receive the same care here from trained professionals who have the physical infrastructure readily available to them to render state-of-the art care.

Our commitment to continual improvements in services, patient safety and patient satisfaction is the cornerstone of our philosophy.
