**TRAINING PROGRAM**

Total DNB Student:- 14  
Total Fellowship:- 6  
Total Phaco Trainee:- 43  
Total SICS/ECCE Trainee:- 34

# TRAINEES CHERISH MGM

Dr. Osamudiamen Cyril Obasuyi,  
Nigeria (ICO), MBBS, FWACS, FMCOph  
Department of Ophthalmology  
Irrua Specialist Teaching Hospital

*"My short time at MGM was a memorable one. Faculty at MGM are willing to let you have hands on experience while guiding you. The confidence instilled in you is next to mine as you are allowed unsupervised surgeries once they see that you are a safe surgeon. They have very friendly staff always willing to assist you and help you settle in as stress-free as possible. MGM is heavily patient centered and will do anything to ensure good eye care for their patients. That MGM has lasted this long and making giant strides in Eye care in Raipur and India at large, is testament to their core belief and desire to remain patient focused while delivering top-notch training at all times"  
Congratulations MGM, keep the flag flying!!*

Dr. Deepanshu Agrawal  
Fellow Vitreoretina  
Madhya Pradesh

*"Regarding MGM, I would like to say not only in the field of Ophthalmology but in general as a hospital as big as MGM, one thing that I have inculcated by working under eminent faculties is, ethical practice. The quality work which is being taught to one, from the very beginning, is phenomenal and very few places in India pays attention on this aspect of a budding ophthalmologist. Every little mistake of yours is being corrected not only academically but also surgically. I request you to continue the training program in the best way you have been doing it, at various levels, for the benefit of those seeking quality education & training. I wish more and more success to MGMEI on its 16th foundation day. Congratulations MGM."*

Dr Pravda Chaturvedi,  
Comprehensive Fellow  
Raipur

*"MGM Eye Institute holds the place of terminal referral centre for the state. Moreover, the work culture of the institute, increases the trust of patients and surgeons alike. Ma'am I would request you to open the branches of the institute in more remote parts of the state. This will help in early identification and treatment of ocular complaints in a big part of Chhattisgarh which is totally deprived of quality eye care. With this request and best wishes for you and MGM Eye Institute."*

Dr Aashish Kumar Gangrade  
DNB Primary  
Madhya Pradesh

*"MGMEI for me is like home away home. It was my honor to be part of such a great institute"*

Dr Ping Fei,  
Shanghai, China

*"The phaco-training program in MGM Hospital is very good, systematic and full of humanity. I have gained a lot of experience and confidence during 2-month stay in MGM. I appreciate all the patient teaching and training from all the doctors. Also thanks for all the help from the nurses, the IT staffs and all the other staffs. I wish all the best for MGM!"*

Dr. Laszuarni Tarmizi,  
Ophthalmologist  
Pirngadi Hospital,  
Medan, INDONESIA

*"I hope MGM Eye hospital become more success and become the best hospital and institute in India and I can join again in MGM Eye Institute Raipur"*

Dr Sunita Behera  
Consultant  
Mahanadi Netra Chikitsalaya  
Pandepali, Subarnapur, Odisha

*"I would like to congratulate your dedicated team for the great efforts and achievements in a wide range of activities related to patient care, professional training, health manpower development and research. During my 1 month training on cataract surgery (Phaco), I had an opportunity to learn systematically the concerned surgical skills, which enabled me to take up surgeries independently with confidence. Other than this training course, I was really impressed on so many aspects of this institute like the OPDs, OTs, wards, cabins, library which are maintained in an excellent manner. The ambience and work culture of this organization attracts professionals because they feel the joy of working with this team. I am proud to be among the alumni of MGM Eye Institute. Wishing you and this Institute "ALL THE BEST" for all future endeavors."*

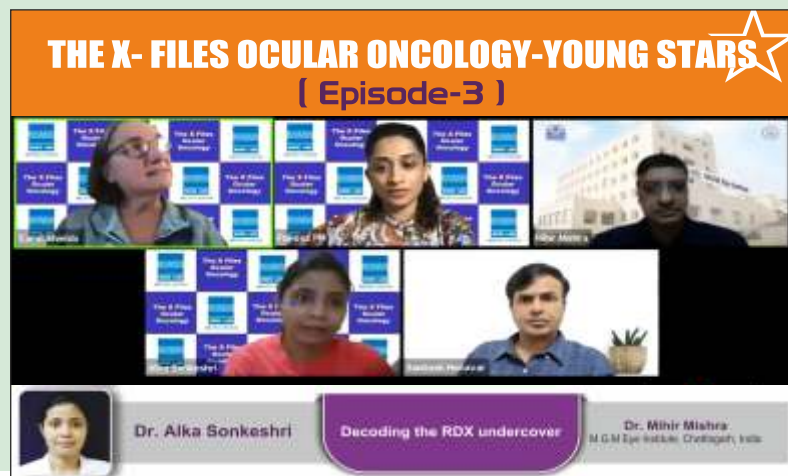

Dr Arpit Sharma  
DNB Primary  
Director & Consultant  
Mahadevi Eye Hospital, Dhar,  
Madhya Pradesh

*"The very decision to pursue my post graduation course (2016- 2019) in MGM Eye Institute was life changing for me. It has always been upwards from then on. The perfect guidance from all the wonderful consultants and staff members has ensured that I deal with every single patient with confidence and expertise. The director and consultants have not only enriched my knowledge in the field of ophthalmology, but also served as role models in discipline, management and protocol following. I fall short of words when I say that I am extremely thankful to the entire MGM Eye Institute team for where I stand today. I have established my own eye hospital and I attribute the success to the vigilant training received in MGM Eye Institute, Raipur."*
